How to make your video entry

Firstly, choose your repertoire carefully. We really want to see what you can do!

Video quality. You don't need to pay for a fancy recording - a smartphone will do. That being said, please play it back and check that the sound and visuals are ok before you upload it. Make sure you have good lighting and that the camera is positioned so we can see all of you. Also, remember to check sound levels and balance.

Do as many takes as you like and choose the best one. <u>The recording must be</u> <u>done in one take</u>. Save it as an MP4 file.

You'll need to open a YouTube account if you don't already have one. Upload your video to your YouTube account. Here's a step-by-step process:

1) Go into Studio. The page will look like this. Click on the blue UPLOAD VIDEOS button, and drag & drop your file
