

How to make your video entry

Video quality. You don't need to pay for a fancy recording - a smartphone will do. That being said, please play it back and check that the sound and visuals are ok before you upload it. Make sure you have good lighting and that the camera is positioned so we can see all of you. Also, remember to check sound levels and balance.

Do as many takes as you like and choose the best one. The recording must be done in one take. Save it as an MP4 file.

You'll need to open a YouTube account if you don't already have one. Upload your video to your YouTube account. Here's a step-by-step process:

- 1) Go into Studio. The page will look like this. Click on the blue UPLOAD VIDEOS button, and drag & drop your file

The screenshot shows the YouTube Studio interface. At the top, there is a search bar labeled 'Search across your channel' and a 'CREATE' button. The left sidebar contains navigation options: Dashboard (selected), Content, Analytics, Comments, Settings, and Send feedback. The main content area features a channel profile picture, the name 'Your channel', and the channel name 'Yorkshire Wolds Music Festival'. Below this is a large blue 'UPLOAD VIDEOS' button. To the right, the 'Channel analytics' section shows 'Current subscribers' as 0. The 'Summary' section for the last 28 days shows 0 views and 0.0 watch time. The 'Top videos' section for the last 48 hours shows 0 views. A 'GO TO CHANNEL ANALYTICS' link is provided. On the far right, the 'What's new in Studio' section lists updates such as 'Linking changes on YouTube', 'Expansion of channel permissions', and 'Upcoming changes to Community Guidelines warnings'.

- 2) Next, fill in the details about your video - for **Title**, put **your name** and for **Description**, put **ECYMY 25**
